About APA and the Theme of the Exhibit

The **American Plains Artists** or APA was first organized in 1982 as a small group of artists who banded together to highlight through their art, the variety to be found in the vast region known as the American Plains. Today, the APA has expanded into a nonprofit organization with a membership consisting of both signature and associate members. The goals have remained the same, to educate the public through traditional and representational art works about the American Plains region including the landscape, wildlife, peoples and way of life in historical or modern times. Works submitted for the juried show must reflect this theme. Review the website <https://americanplainsartists.com> for more info.
